Ana Sponsordan / From the main sponsor

On behalf of the Petra Development and Tourism Region Authority, it is with immense pleasure and pride that I extend a warm welcome to you all for the 14th International Tourism Cartoon Competition. As the main sponsor of this prestigious event, we are honored to be a part of this celebration of art, creativity, and the profound impact of the tourism industry.

Nestled within the heart of Jordan, Petra stands as a timeless testament to human ingenuity, captivating visitors from all corners of the globe. This ancient city, with its breathtaking architectural marvels carved into rose-colored cliffs, has been a beacon of tourism and cultural heritage for centuries. Today, as Jordan's leading tourism center, Petra continues to be a source of inspiration, drawing travelers who seek to immerse themselves in its rich history and awe-inspiring landscapes.

At the Petra Development and Tourism Region Authority, our mission is to preserve and promote the heritage, beauty, and unique experiences that Petra offers. We strive to create an environment that fosters sustainable tourism, ensuring that future generations can also appreciate the wonders of this extraordinary destination. It is our unwavering commitment to promoting creativity, diversity, and inclusivity within the tourism industry that led us to sponsor this year's International Tourism Cartoon Competition.

The chosen themes for this year's competition, "Women in Tourism Industry" for the Adult Category and "Space Tourism" for the Youth Category, carry profound significance. We believe that it is essential to recognize and celebrate the invaluable contributions of women in shaping and advancing the tourism sector. Women have played a pivotal role in driving innovation, diversity, and sustainability within this industry, and their achievements deserve our utmost admiration and appreciation.

Furthermore, the theme of "Space Tourism" encourages us to expand our horizons and reimagine the possibilities of travel and exploration. As the world embarks on a new era of space discovery, it is only fitting that we encourage young minds to envision a future where the boundaries of explora-

tion extend far beyond our planet. The creativity and imagination of our youth are essential in shaping the tourism industry of tomorrow.

We are delighted to announce that this year's competition received an overwhelming response, with 357 talented cartoonists from 45 different countries submitting a total of 614 cartoons. The enthusiasm, originality, and thought-provoking nature of these artworks are a testament to the incredible talent and

passion that exists within the global artistic community.

In the Adult Category, 242 cartoonists submitted 457 cartoons, each one offering unique perspectives on the role of women in the tourism industry. Their artworks beautifully capture the strength, resilience, and contributions of women who continue to make a profound impact on this dynamic field. Through their creativity, they have opened doors for dialogue, reflection, and progress.

In the Youth Category, 115 budding cartoonists submitted 157 thought-provoking cartoons that transport us to a world of space tourism possibilities. These young talents have fearlessly embraced the theme, showcasing their boundless imagination and inspiring us to dream beyond the confines of Earth. Their artistic expressions remind us that the future of tourism lies in the hands of these visionary minds.

As you embark on this journey through the competition book, let these captivating cartoons transport you to new realms of understanding, inspiration, and contemplation. We extend our heartfelt appreciation to all the participants for their exceptional contributions and commend the organizers, judges, and everyone involved in making this competition a resounding success.

Together, let us celebrate the power of art, the indomitable spirit of women in the tourism industry, and the limitless possibilities that await us in the realm of space tourism.

With warmest regards,

Suleiman FARAJAT, Ph.D.

*Chief Commissioner of the Petra Development
and Tourism Region Authority*

Düzenleme kurulundan / From the organization committee

The International Tourism Cartoon Competition has been an annual event since 2009. There has been an increasing number of and quality of works submitted for the competition that aims to describe tourism, as one of the largest sectors in the world, from cartoonists' points of view.

The tourism industry offers an opportunity for more people to travel, meet people from different cultures, and experience unique adventures, making it an impressive sector worldwide. And women play one of the biggest roles in this industry.

Tourism has become an essential part of our lives. The pandemic has created serious challenges for the tourism industry, but it has also given us an opportunity to reflect on its value and importance for our society. The 14th International Tourism Cartoons Competition, organized by the Anatolia Tourism Academy with the sponsorship of Petra Development and Tourism Region Authority, is a celebration of creative and humorous perspectives on tourism.

The theme of the "*Women in Tourism Industry*" was chosen for the Adult Category to highlight the important role of women in the tourism industry. For the Youth Category, the theme was "*Space Tourism*". A total of 357 cartoonists from 45 different countries submitted 614 cartoons to the competition. In the Adult Category, 242 cartoonists submitted 457 cartoons, while in the Youth Category, 115 cartoonists submitted 157 cartoons. They all produced original, creative, and thought-provoking works. The artists reflected on the role of women in the tourism industry and their own creative perspectives on the discovery of unique experiences in space tourism.

The works submitted to the competition were evaluated in two stages. In the first stage, all the

works were pre-evaluated at a meeting held by the members of the pre-evaluation selection committee in online (Via Zoom). At the end of this meeting, 51 works in Adult's category and 41 works in Youth's category were determined. Prior to continuing with the second stage, all nominated works were announced on the internet between 1 - 9 February 2023. Due to the occurrence

of reasonable objections, on which the committee members reached a consensus, four works in Adult's category and two works in Youth's category were eliminated. Therefore, 47 works in the Adult's category and 41 in the Youth category were included in the final evaluation. At the second stage, finalist works were re-evaluated by the members of the final selection committee. This time, the evaluation procedure was undertaken in two sub-stages. In the first stage, the number of finalist works was reduced to 21 in Adult's category and 20 in Youth category. In the final stage, seven winners in Adult's category and three winners in Youth category were qualified for an award presentation.

This book contains 95 finalist and awarded works in both Adult's and Youth categories. As the International Tourism Cartoon Competition was firstly initiated with the attempts of the cartoonist, Professor Atila Özer, we are pleased to continue to commemorate his name with an award to be presented in each year.

The award ceremony for the 14th International Tourism Cartoons Competition will be held at Petra Tourism Center in Jordan. The winners will be presented with their awards, and their magnificent works will be exhibited.

Stay in peace and smile...

Nazmi Kozak, Ph.D.
